Phase I - Equitable Access to Effective Educators School Diagnostic

Introduction

National data show that poor and minority students, English Language Learners and students with disabilities continue to be taught more often than their peers by inexperienced, out-of-field or ineffective teachers. As a result, the United States Department of Education (USDE) required states to develop equity plans and use evidence based strategies to address this issue. Kentucky's plan is focused on teacher preparation; recruitment, hiring and placement of teachers; providing supports for on-going, job-embedded professional learning; and strategies to retain teacher and leaders.

All districts and schools in Kentucky are required to identify barriers and develop strategies to address these issues to achieving equitable access to effective educators for students most at risk. This is being incorporated within the Comprehensive District and School Improvement Plans. This diagnostic should be used as tool for identification of barriers and a catalyst for development of strategies that will result in novice reduction for gap closure. Strategies will be incorporated into the Comprehensive School Improvement Plan.

School Equity Data (1)	Complete the School Equity Data tab for this diagnostic. Include at least one other self-selected indicator for consideration. *Self-selected data could come from a variety of sources. It should be relevant to the needs of the school. Examples could include: principal, teacher or student demographic data; percentage of National Board Certified Teachers or Advanced Degrees; teacher or principal effectiveness data, TELL, turnover. **The school should complete the information in the chart ONLY for the subgroups reported in the School Report Card where the data has been suppressed to protect student identification required by the Family Educational Rights and Privacy Act (FERPA). Follow the steps below:	I acknowledge that I have uploaded the School Equity Data.	The Copy of School Equity Diagnostic is completed with data that show 75% of teachers have certification above Bachelor's.	Equity_Diagnostic PLES 2017

Provide a brief analysis the school data from the chart. Include any trends, note-worthy data points or perceptions the data has provided related to equitable access to effective educators.

The data shows that we have 4.04% of student population are ELL which is a slight decrease in the population.

The percentage of teachers that are out of field is 0%. 75% of teachers have Certifications above Bachelor's Degree. The population of minority students is 10.40%.

After the data analysis is complete, the school will then identify the barriers (challenges) for some of the identified trends. An identified barrier, for example, could be higher teacher turnover in priority schools as compared with non-priority schools. Once the barriers have been identified, then root causes of why the barriers exist will be included.

The identified trends show that all teachers are Highly Qualified and that 3/4's of the teachers have Certifications above Bachelor's which is good since several veteran teachers have retired in the last 5 years. The minority population is 10.04% which is a trend showing that we are becoming a slightly more diverse population.

Goal Setting (4)	Complete the School Equity Goals tab. Use the school's most recent measures in the Equity tab of the School Report Card to set equitable access goals for the next three years. The measures include: Working Conditions, Overall Teacher and Leader Effectiveness, Overall Student Growth, Percentage of new and KTIP teachers, and Percentage of Teacher Turnover. ***Goals should reflect an analysis of barriers, root causes and strategies. Comprehensive School Improvement Plan

Paint Lick Elementary School

Equitable access to effective educators must be reflected in the Comprehensive School Improvement Plan. Strategies could include, but are not limited to, recruitment; hiring and placement of teachers and/or students; providing supports for on-going, job-embedded professional learning to improve teacher and leader effectiveness; and strategies to retain teacher and leaders, particularly in high needs schools. Once implemented, these should assist the school in meeting the goals set in the previous section.

If there are strategies and activities within one of the five major goals of the CSIP, which adequately addresses equitable access, the school may select the appropriate goal, objective, strategies and activities.

OR

The school may create a new goal to address equitable access to effective educators. Once a new goal has been created, the school will need to include appropriate objectives, strategies and activities.

The school may choose to provide an optional narrative response to include any additional information, but this is not required.

Goal 1:

Increase the averaged combined reading and math percentage of students scoring Proficient/Distinguished from 54.1 in 2015-16 to 62.1 in 2016-17.

Measurable Objective 1:

collaborate to increase the combined reading and math percentage of students scoring P/D from 54.1% in 2015-16 to 62.1 by 05/31/2017 as measured by KPREP..

Strategy1:

Instruction/Intervention - Teachers will target students not performing at the Proficient Level in Reading and Math. Teachers will focus on implementing evidence based strategies to improve student achievement in Reading and Math. Monthly RTI Meetings will be scheduled with RTI staff discussing students and monitoring progress. Each teacher will work with a team member to identify specific strategies to implement with targeted students based on student goals and skills. Data Boards will be kept with each classroom monitoring and tracking students progress on MAP Tests.

Reflection

Reflect upon your responses to each of the Missing Piece objectives.

The school has a good working relationship with parents. Teachers send a weekly newsletter home and the principal has a monthly calendar that goes home with each student. The district and school websites have student achievement information along with Family Resource Youth Service Centers contact information. The local churches are supportive to the school community and provide support for families with special needs. Many community leaders are invited into the school as special guests to read to students and talk about their career. The Site Base Council has a Title I Parent Involvement Policy and a Parent-Teacher Compact where each teacher and parent sign an agreement to work together and promote what is best for students. Family Night is held twice yearly where parents can do activities with their children and talk with teachers. A parent representative serves on the district calendar committee and the district's Comprehensive Improvement Planning. Yearly surveys are given to parents about the school-parent communications and gives parents a way to voice concerns or give opinions.

Improvement Plan Stakeholder Involvement

Introduction

The responses should be brief, descriptive, and appropriate for the specific section. It is recommended that the responses are written offline and then transferred into the sections below.

Improvement Planning Process

Improvement Planning Process

Describe the process used to engage a variety of stakeholders in the development of the institution's improvement plan. Include information on how stakeholders were selected and informed of their roles, and how meetings were scheduled to accommodate them.

Data was analyzed by faculty and the Site Base Council prior to completing the Comprehensive School Improvement Plan. The School Report Card, KPREP scores and the Annual Title I Program Evaluations were used as resources for making decisions.

The Annual Title I Program Evaluations Survey was given to parents at the end of the 2015-2016 school year to parents. Those results have been reviewed and discussed.

During PLC Meetings student data was discussed with ways of improving student achievement with ideas included in the CSIP.

The school participated in the Kentucky School Safety Assessment during the 2016 Fall Semester. Surveys were given to all parents and to students in grades 4-5. Results were tabulated by the Kentucky Center for School Safety and included in a school report which was shared with staff for improvements in school environment and school safety.

Describe the representations from stakeholder groups that participated in the development of the improvement plan and their responsibilities in this process.

Parents were involved with the Annual Title I Evaluations Survey with paper copies sent home for parents to respond. The school encouraged participation in the survey:

1. 98% said yes, they have been invited to attend training/conferences to help their child succeed in school.
2. 98% responded yes, that they have received communications with suggestions on how to help and support their child's learning at home.
3. 93% responded yes, they are aware of Kentucky's standards and goals for the school and how the staff is working to achieve these goals.
4. 100% responded yes, they have received clear and timely information regarding their child's academic progress.
5. 85% responded yes, they are aware when the school council holds its meetings.
6. 88% responded yes, they have the opportunity to give input regarding school policies.
7. 98% responded they received a copy of the school-parent compact.
8. 83% responded yes, they were invited to attend the meeting to work on/revise the school-parent compact.
9. 98% responded yes, they received a copy of the School Parent Involvement Policy.
10. 85% responded yes, they were notified of the meeting to evaluate the school's Parent Involvement Policy.
11. 99% responded yes, meetings were held at a convenient time of the day.
12. 99% responded yes, they were kept well informed of the activities at the school.
13. 100% responded yes, opportunity has been provided for parents to communicate with principals and other administrative staff.
14. 100% responded yes, that the principal and staff have been supportive and willing to help in providing a variety of learning opportunities for their child.

Other questions: 99% responded yes that their child felt comfortable about coming to school and that they themselves felt comfortable and welcome at the school. 100% responded that they felt comfortable volunteering at the school.

Parents on the Site Base Council reviewed the KPREP data and made recommendations to be included in the school's improvement plan.

Teachers participated in Data Day to analyzed student data from KPREP with suggestions and recommendations given to improve student SY 2016-2017

achievement and be included in the Comprehensive School Improvement Plan.

Explain how the final improvement plan was communicated to all stakeholders, and the method and frequency in which stakeholders receive information on its progress.

The final improvement plan is reviewed and approved by the School's Site Base Council and the school's faculty.

The plan is also present to the Board of Education and is posted on the school's website. Parent are informed about the final improvement being available online at www.garrard.kyschools.us.

The school and Site Base Council do reviews and checks systematically. The Site Base Council Meetings are listed on the parents monthly calendar sent home to parents. All parents are notified by paper copies sent home to about the opportunity to run for parent representative on the Site Base Council. Site Base Council agendas and minutes are posted for parents and staff.

Phase I - Needs Assessment

Introduction

The purpose of the School Needs Assessment is to use data and information to prioritize allocation of resources and activities.

Data Analysis

What question(s) are you trying to answer with the data and information provided to you? What does the data/information tell you?

What does the data/information not tell you?

What are our areas of success and what are our areas of needs? Which specific groups are identified as needing improvement?

The data tells us the following:

*Our performance score is 75. Our school is ranked as Distinguished.

* Our gap scores are the following:

Reading- no gap +7.6 above the state average, math -10.1 compared to state, social studies is +43 above the state average, writing is +6.9 above the state, language mechanics +26.9 above the state.

Growth scores are the following:

Reading is + 4.6 from previous year, math is +1.5, social studies is over 100% as last year, writing is -6.2, language mechanics is +5.1 growth .

*The overall content scores were above the state average in Reading, Writing, Language Mechanics, and Social Studies.

*Reading is 5.6 points above the state: Females outscored males by 19.1%; Free and Reduced students were 8.3 points above the state; Gap groups were 7.0 points above the state.

*Math is 5.4 points below the state.; 3rd grade Math was 4 points above the state; 4th grade Math was 12.9 pts. below the state; 5th grade was 8.1 below the state; 3rd grade Males outperformed the state by 3.7% points; 4th grade males are 22.2 below the state, and 5th grade males are 15.9 below the state.

3rd grade females are 4.9 above the state, 4th grade females are 4.1 below the state, and 5th grade females is 2.1 above the state. The Gap Group for math is below the state by 5.4 points.

*Social Studies NAPD calculation is 100 and the P/D score is 34.3 points above the state. The P/D score in Social Studies is 92.0 . Females outscored the males by 41.2 points. The Gap Group was 40.0 points above the state.

*Writing is 3 points below the state. Females outscored the males 2.65 points in Writing. The Gap Group were above the state by 3.9 points.

*Language Mechanics P/D is 27.7 points above the state. The males were 29 points above the state. Females scored higher than males by 9 points and are 25.8 above the state. Free and Reduced is well above the state. The Gap Group is 27.8 points above the state.

*The data/information does not give us any Science scores. Also, some grades did not have enough students with Disability or migrant or LEP to make a sub group.

Areas of Strengths

What were the areas of strength you noted? What actions are you implementing to sustain the areas of strength? What is there cause to celebrate?

In all subject areas students scored above state average except math. All students exceeded growth in all areas from the previous year except 4th grade math. Overall math grew 1.5 points. Language Mechanics showed 5.1 growth from last year. Social Studies NAPD was 100% for the second year in a row. Reading improved by 4.6 points over the previous year. To sustain these areas of strength we are implementing 30-60-90 Days Plan in the areas of Writing, RTI and Instructional Strategies.. We have redesigned our PLC's to allow teachers to share data and teaching strategies. We have implemented continuous scheduling for RTI Meetings that will allow us to meet individual student needs. Writing training will allow for more school wide approach to teach on- demand writing. New Reading series, 'JOURNEYS' is continuing with teachers receiving training for successful implementation. Go Math is the math series used for instruction along with Study Island, Moby Max and one on one, small group instruction. Program Reviews are being improved and fine tuned with emphasis on cultural experiences and knowledge of a foreign language. Our Readers Are Leaders program has been expanded to include guest readers sharing information about their careers. The school has a monthly career theme. Attendance continues to improve.

Opportunities for Improvement

What were areas in need of improvement? What plans are you making to improve the areas of need?

There is a discrepancy in achievement between boys and girls in Reading and Math. 4th and 5th grade Math is below the state average.

The area of writing needs improvement. This is being addressed through a school and district literacy team.

To improve boys' interest in Reading, the new reading series has high interest stories and leveled readers to meet student needs. We have a male staff member working with students in 4th and 5th grade Math. A male teacher assists with Writing practice which helps male students see the importance of writing in everyday life.

The librarian is making an intentional effort to stock the library with high interest books male students will enjoy.

The KAGAN strategies are being implemented to keep males more engaged and interested. This gives males more opportunities to move and improve engagement in the learning tasks.

To improve Math- students work individualized Math in the Computer Lab 3 days weekly. The lowest performing students in math are receiving RTI daily. There is a daily intervention class in the morning from 7:30-8:00. Students work on Study Island during this time which individualizes math instruction.

Conclusion

Reflect on your answers provided in the previous sections. What are your next steps in addressing areas of concern?

NEXT STEPS:

- *Implement the 30-60-90 day plans.
- *Continually reviewing MAP data to monitor progress/DATA Boards updated and discussed during PLC's.
- *Continue the PLC process.
- *Continue to improve the RTI process.
- *Continue emphasis on Writing at all levels.
- *Collect Writing data periodically to monitor student growth.
- *Continue Walkthroughs and give teacher's feedback for improvement.
- *Make teachers more aware of the discrepancy between male and females in all subjects.
- *Math achievement, although showing progress, is still below the state average in 4th and 5th grades.
- *We will continue to support Math teachers at all levels and emphasize more rigor and relevance with Math skills at all grade levels.
- *Continue to build on the groundwork that has been laid in the past on school culture and climate.

Plan for Closing Achievement Gap 2016-17

Overview

Plan Name

Plan for Closing Achievement Gap 2016-17

Plan Description

Goals selected will be those which directly relate to closing the achievement gap among our schools non-duplicated gap group students.

Goals Summary

The following is a summary of the goals encompassed in this plan. The details for each goal are available in the next section.

#	Goal Name	Goal Details	Goal Type	Total Funding
1	Increase the averaged combined reading and math percentage of students scoring Proficient/Distinguished from 55.1 to 60%.	Objectives: 1 Strategies: 1 Activities: 9	Organizational	\$17200
2	Increase Proficiency among Gap Groups.	Objectives: 2 Strategies: 2 Activities: 7	Organizational	\$0
3	K-3 Reading and Math Proficiency	Objectives: 3 Strategies: 2 Activities: 6	Academic	\$500

Goal 1: Increase the averaged combined reading and math percentage of students scoring Proficient/Distinguished from 55.1 to 60%.

Measurable Objective 1:

collaborate to increase the combined reading and math percentage of students scoring P/D from 55.1% to 60% by 05/31/2017 as measured by KPREP..

Strategy 1:

Response To Intervention - Teachers will target students not performing at the Proficient Level in Reading and Math. Teachers will focus on implementing evidence based strategies to improve student achievement in Reading and Math. Monthly RTI Meetings will be scheduled with RTI staff discussing students and monitoring progress. Each teacher will work with a team member to identify specific strategies to implement with targeted students based on student goals and skills. Data Boards will be kept with each classroom monitoring and tracking students progress on MAP Tests.

Goal 2: Increase Proficiency among Gap Groups.

Measurable Objective 1:

collaborate to increase parent involvement in supporting school's efforts to improve student achievement by 05/31/2017 as measured by Unbridled Learning calculation..

Strategy 1:

Parental Communication - Parents will be included in multiple activities to involve them in the education of their child.

Category:

Activity - Parental Communication	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Teachers will review grades bi-weekly and make parental contact immediately if a student is failing to meet expectations. Measurable Objective 2:

demonstrate a proficiency in Math by improving accountability-Gap of proficient/distinguished from 32.4 to 45 by 05/31/2017 as measured by K-Prep.

Strategy 1:

Interventions - Teachers will target students in the free/reduced meal program who are not succeeding throughout the school year.

Teachers will focus on interventions to address academic gaps among this group. Teachers will collaborate and plan during PLC meetings and staff meetings to find ways to meet those students' weaknesses.

Category: Continuous Improvement

Research Cited: Research based strategies will be used from the Comprehensive Guide to Tiered Instruction.

Activity - Assessments	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
The following computer programs will be used to help identify struggling students : Study Island, MAP results, Easy CBM, Reading Eggs, Moby Max. Data will be analyzed during PLC meetings.	Academic Support Program	08/11/2014	05/31/2017	\$0	General Fund	Teachers, Principal, Support Staff

Goal 3: K-3 Reading and Math Proficiency

Measurable Objective 1:

A 25% increase of Kindergarten, First, Second and Third grade students will demonstrate a proficiency by the third screening in English Language Arts by 05/31/2017 as measured by MAP Assessments.

Strategy 1:

Measure of Academic Progress - Support staff will assess each Kindergartener once per year using the BRIGANCE assessment. The Measure of Academic Progress Test (MAP) will be used to monitor the development of early literacy and early reading skills along with math skills three times per year.

Category: Continuous Improvement

Research Cited: Brigance/Measure of Academic Progress

Activity - MAP	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Kindergarten, First, Second and Third Grades will take the MAP Assessments: Measure of Academic Progress, 3 times per year in the computer lab. Reading and Math will be assessed for K-3. Third Grade will also test Language Usage using MAP as the assessment measure.	Academic Support Program	08/11/2014	05/31/2017	\$0	No Funding Required	Teachers

Activity - Reading and Math Assessments	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Reading and Math Common Assessments will be given consistently with individual results analyzed and interventions planned for students not performing at grade level.	Academic Support Program	08/11/2014	05/31/2017	\$500	District Funding	Teachers, Support Staff, District Staff

Activity - Easy CBM	Activity Type	Begin Date	End Date	Resource Assigned	Source Of Funding	Staff Responsible
Easy CBM individualized computer program will be used with students in Rtl to monitor growth and effectiveness of strategy.	Academic Support Program	08/11/2014	05/31/2017	\$0	No Funding Required	Teachers, Special Ed. Staff

Measurable Objective 2:

A 15% increase of Third grade students will demonstrate a proficiency as evident on K-Prep in Reading by 05/31/2017 as measured by K-Prep.

Phase II - KDE Compliance and Accountability - Schools

Introduction

The process of Improvement Planning in Kentucky is used as the means of determining how schools and districts will plan to ensure that students reach proficiency and beyond by 2015. The process focuses school and district improvement efforts on student needs by bringing together all stakeholders to plan for improvement, by focusing planning efforts on priority needs and closing achievement gaps between subgroups of students, by building upon school and district capacity for high quality planning, and by making connections between the funds that flow into the district and the priority needs in schools.

Your school's plans for improvement must be based on careful and honest analysis of data, address all content areas, and clearly address gaps in student achievement.

Planning and Accountability Requirements

The school has identified specific strategies to address areas for improvement identified in the TELLKY Survey results.

Goal 1:

Increase the averaged combined reading and math percentage of students scoring Proficient/Distinguished from 54.1 in 2015-16 to 62.1 in 2016-17.

Measurable Objective 1:

collaborate to increase the combined reading and math percentage of students scoring P/D from 54.1% in 2015-16 to 62.1 by 05/31/2017 as measured by KPREP..

Strategy1:

Instruction/Intervention - Teachers will target students not performing at the Proficient Level in Reading and Math. Teachers will focus on implementing evidence based strategies to improve student achievement in Reading and Math. Monthly RTI Meetings will be scheduled with RTI staff discussing students and monitoring progress. Each teacher will work with a team member to identify specific strategies to implement with targeted students based on student goals and skills. Data Boards will be kept with each classroom monitoring and tracking students progress on MAP Tests.

Category: Professional Learning & Support

Research Cited: Research-based Strategies will be used from the Comprehensive Guide to Tiered Instruction, "Mentoring Minds, The Critical Thinking Series." Moby Max, Easy CBM, Study Island.

Activity - Math Instruction	Activity Type	Begin Date	End Date	Funding Amount & Source	Staff Responsible
KASC Core Academic Standards Checklist will be used to plan instruction with assessment ongoing. Constructive response and open response questions will be practiced weekly. Executive Summary

Introduction

Every school has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school, and the kinds of programs and services that a school implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the school community will have a more complete picture of how the school perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school to reflect on how it provides teaching and learning on a day to day basis.

Beliefs

We believe:

- .All children have worth and dignity and should be given the opportunity to achieve their fullest self-realization through a program of learning to assure the highest possible levels of academic performances for all children.
- .Children should be educated so that they will be productive members of our community, the state, the nation and the world in which theylive.
- .Children should become literate with the goal and desire to be lifelong learners.
- .In teaching children moral values; self-discipline; and respect of authority, other people and themselves.
- .Children should be given an awareness of and an appreciation of multicultural experiences, with an emphasis on our American heritage, the meaning of democracy and its practice through meaningful classroom experiences.
- .All children can learn to make appropriate decisions given a supportive and challenging educational environment.
- .In the active involvement of parents, teachers, and the community, which is vital to our educational program.
